

Graduate Student Job Opportunity: 6 Weeks in Munich, Germany

Emory's Undergraduate Program in Neuroscience and Behavioral Biology is seeking qualified graduate student applicants to serve as a program assistant (PA) for NBB in Germany in Summer 2026. The PA will accompany a group of 16-20 Emory undergraduate students and two NBB faculty members for a 6-week summer study abroad program to Munich, Germany (tentative dates: May 17-June 27, 2026). PA will receive compensation (\$3,000) and a per diem for food (\$2,200). Airfare to and from Munich, local housing, and a local metro pass are included and will be coordinated via Emory or our international education partner.

Successful applicants will demonstrate excellent logistical and planning skills, adeptness at problem-solving, comfort with novel and changing situations, and an interest in connecting with Emory undergraduates. Language skills in German are preferred but not required. No experience teaching or expertise in neuroscience is required.

Prior to program departure and during the program duration, PA duties and responsibilities will include:

- Attending two pre-orientation meetings in Atlanta
- Assisting in student arrival communication and coordination in Munich
- Issuing program communications via group messaging
- Liaising with our international education partner
- Serving as a contact & nexus point for student needs and concerns
- Being on-call 6 days/nights a week for student emergencies
- Accompanying the group on all cultural excursions in Munich and one weekend in Berlin
- Planning one optional local Munich weekend activity for students
- Attending one debrief meeting in Atlanta

The application is now open, and responses will be considered on a rolling basis. Please contact Megan Massa (mmassa@emory.edu) and Leah Roesch (leah.roesch@emory.edu) with any questions.

To apply, please fill out and provide a CV through the following form (Emory sign-in required):
