Listing #1
The Department of Quantitative Theory and Methods (QTM) is recruiting teaching assistants for Fall 2024 to support **QTM 100: Intro to Statistical Inference**. Lab TAs instruct one weekly lab section, attend weekly TA meetings, supervise an undergraduate teaching assistant, and provide general course support. The position requires 10-15 hours effort per week, and compensation is $2,625 per semester. Knowledge of introductory statistics is required (e.g., basic probability, t-tests, chi-squared tests, ANOVA, linear regression); knowledge of R and previous teaching experience are preferred but not required. New QTM 100 TAs are encouraged to attend lectures as needed to refresh knowledge of material covered in lab.
For more details about the position, please contact lora.mcdonald@emory.edu.

Listing #2
The Department of Quantitative Theory and Methods is recruiting teaching assistants for Fall 2024 to support the following courses:
- QTM 150 Intro to Statistical Computing I (TAs, 2 positions)
- QTM 151 Intro to Statistical Computing II (graders, 3 positions)
- QMT 200 Applied Regression Analysis (TA and grader, 2 positions)
- QTM 210: Probability and Statistics (TA for lab, 1 position)
- QTM 220 Regression Analysis (TAs for labs, 2 positions)
- QTM 520: Applied 1 (grader, 1 position)
- QTM 530: Computing 1 (grader, 1 position)
- QTM 540: Communications (TA, 1 position)

Course details can be found in the Atlas. Salary for each position is $2,000 per semester. PhD students should apply at https://forms.office.com/r/X3UYQY9U7z
Master's students should apply at https://collegeconnect.emory.edu/register/ecas_service_portal_login
