Summer courses and workshops open for registration on Monday, May 15.

Explore CIRTL's summer courses, workshops, and teaching institutes on STEM teaching and professional development. All programming is online unless otherwise noted. Registration links will be live on CIRTL's website at noon Eastern Time on Monday, May 15 and will remain open until capacity is reached.

Johns Hopkins Teaching Institute
June 6 - 9 | Register
The Johns Hopkins Teaching Institute is a multi-day teaching institute designed to help doctoral students and post-docs become successful and confident classroom teachers. The online version of this institute takes place from June 6 to June 9. 4 seats remain.

Change Leadership for Inclusive Teaching and Learning
Thursdays, June 1 - Aug. 3 | Read more
This 10-week synchronous online course aims to strengthen undergraduate STEM education by preparing graduate students, postdoctoral scholars, and early career-faculty to be change agents in their roles in higher education. Cap: 40. Registration runs May 15 until capacity is reached.

Basics of Online Learning and Teaching
Mondays, June 5 - Aug. 7 | Read more
This blended 10-week course walks students through online course development in a mix of synchronous and asynchronous activities. Cap: 30. Registration runs May 15 until capacity is reached.
First Year Faculty Teaching Academy  
**Tuesdays & Thursdays, June 6 - 11 | Read more**  
This intensive course is designed for future faculty and early career faculty in their first years of teaching interested in learning how to create a great learning experience for your students while developing a solid foundation of best teaching practices and strategies. Cap: 60. Registration runs May 15 until capacity is reached.

Planning Your Teaching-as-Research Project  
**Tuesdays, June 13 - July 15 | Read more**  
Jumpstart your plans for a Teaching-as-Research (TAR) project in this 6-week flipped course designed to guide participants through developing a research question, identifying project methods and outcomes, and more. Cap: 25. Registration runs May 15 until capacity is reached.

An Introduction to Evidence-Based Undergraduate STEM Teaching  
**June 19 - Aug. 13 | Read more**  
Explore our 8-week massive open, online course (MOOC) designed to provide graduate students, postdoctoral scholars, and other aspiring faculty in STEM disciplines with an overview of effective college teaching strategies and the research that supports them. No cap. Registration opens May 15.

Using Teaching-as-Research to Advance Equitable Educational Experiences  
**Wednesdays, June 21 & 28 | Read more**  
Join us for a two-part workshop that invites participants to consider how they might use CIRTL’s “teaching-as-research” framework to advance equitable educational experiences. No cap. Registration opens May 15.

Preparing Your Teaching Demo for a Job Interview  
**Thursday, July 13 | Read more**  
In this interactive workshop, we’ll discuss ways to go into a teaching demo for a job interview with preparedness, confidence, and adaptability. Cap: 150. Registration runs May 15 until capacity is reached.
