

A support program for autistic students

Come and join us.

*Free for students at Emory
University and Oxford College*

OUR VISION

...that every autistic Emory student has a thriving, positive, goal directed experience; achieves a sense of belonging and community; and graduates with a clear and successful plan towards employment, career development, or further education.

WHO ARE WE?

Emory Oaks is a new grant-funded program that pairs students with a staff member called a Support Navigator (SN). Your SN will meet with you regularly to identify goals, gifts, interests, and strengths. Then you will work collaboratively to plan toward your goals. Your SN will ensure that you access the supports and services at Emory (and in the community) that you need or desire!

WHAT CAN WE DO?

- We will support you in identifying and meeting goals
- Connect you to academic accommodations, career development, mentoring, academic coaching, and mental wellness support
- Train and provide support to students, faculty, & staff on how to meaningfully create a welcoming campus community
